Stephen:

I did not see anything in the dispute resolution process prohibiting you guys from sending in your letter of objections as a .pdf document via email. Gloria requested the letter of objection to be addressed to me with a cc to Gloria and Sam. The email addresses are as follows:

moore.gary@epa.gov
moran.gloria-small@epa.gov
coleman.sam@epa.gov

In addition, to what you guys are going to provide, you need to address the following in the letter of objection and what you provide needs to be compelling:.

1. Describe in detail why work was stopped at the site? Provide timeline and good compelling reasons for work stoppages.
2. Describe in detail why we should believe that you guys will finish the work required by the Removal and Remedial Orders?
3. When you believe that such work will be completed for both Removal and Remedial Orders? Field Work? Reports? Paperwork? etc.
4. What commitment will be made to EPA that what you say will happen?

On a separate note, I would appreciate it if you could send me a copy of the QMP, QAPP, and FSP. I am not sure if Rafael has reviewed them as of yet or provided them to our QA person. If you get them to me, I will get them pushed along to our QA person. If you want, you can forward me the email that you sent to Rafael.

Thanks,

Gary Moore
